Advise

Call us 'Old Fashioned' but we love to have a 'chin wag'. Don't hesitate to pick up the phone and see how we can help.

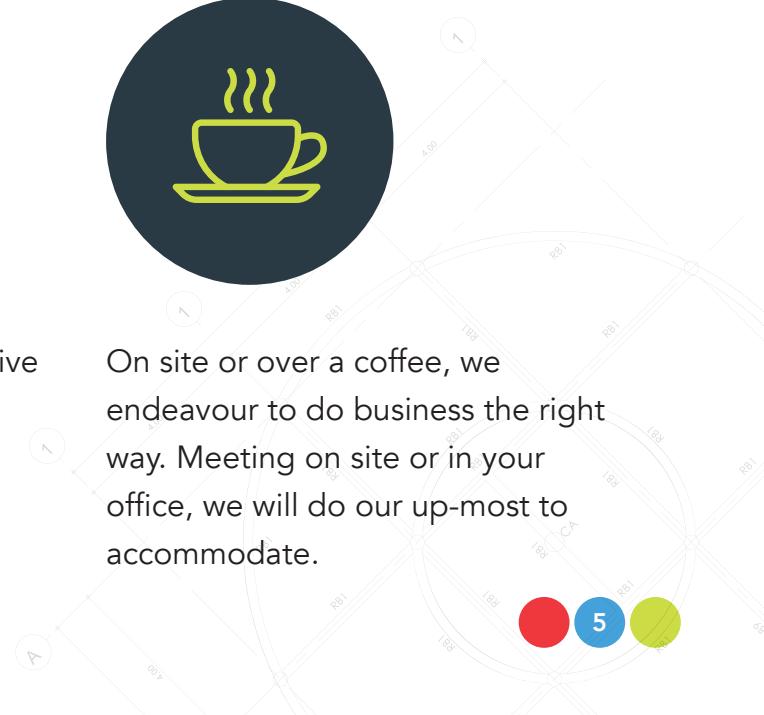

We respond to emails at most times of the day. Sending pictures is a great way for us to get a good understanding of a new project.

If a project is time sensitive we are happy to meet initially by video call to discuss requirements.

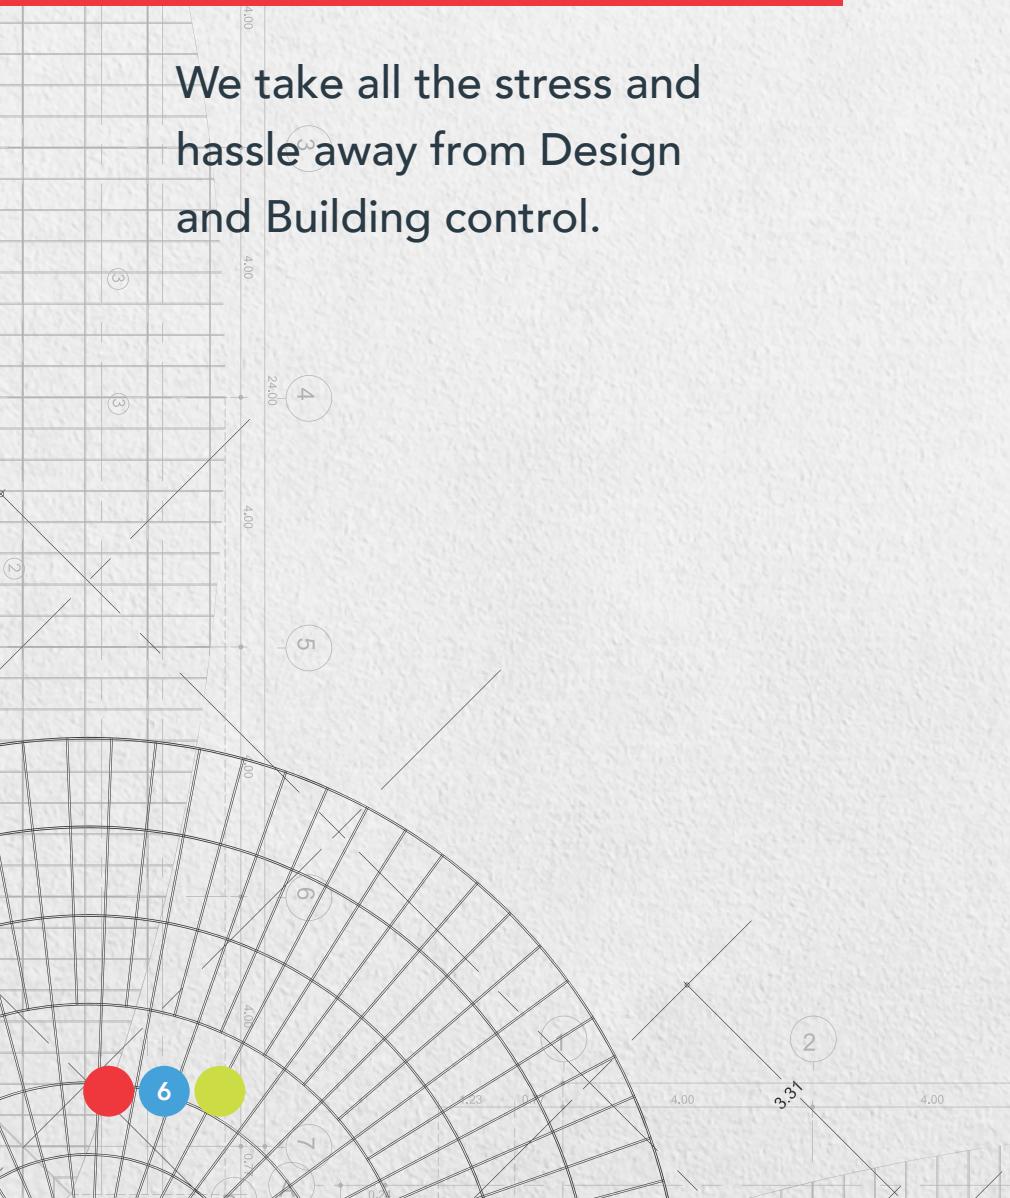

On site or over a coffee, we endeavour to do business the right way. Meeting on site or in your office, we will do our up-most to accommodate.

Design

We take all the stress and
hassle away from Design
and Building control.

1

INITIAL DESIGN

With full input from you, ensure every stakeholder is happy with the drawn plans. Amendments made as necessary from our highly skilled in-house designer until every drawing is perfect.

2

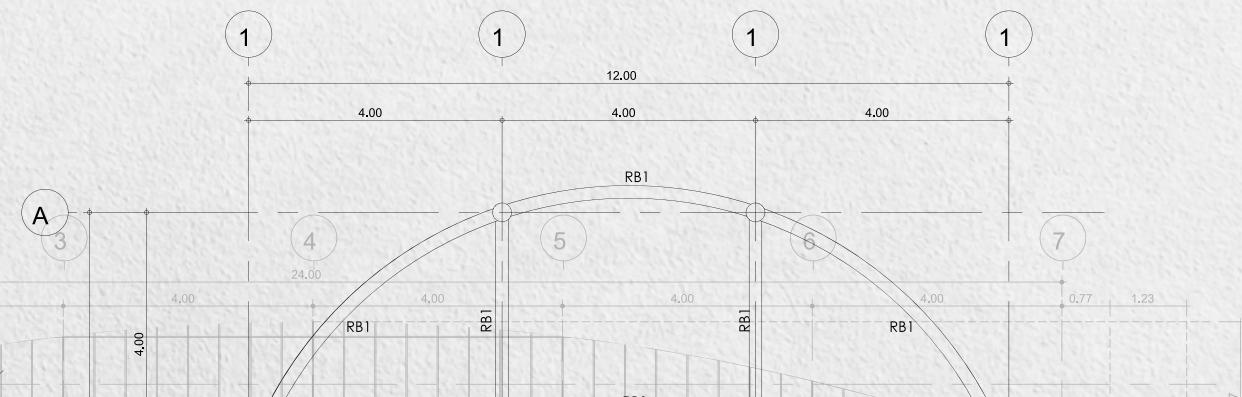

BUILDING CONTROL

Design stage Construction Design and Managements Regulations (CDM) advice will be provided. ASK's partnership with Cornwall Building control ensures every project is managed safely within building guidelines.

3

COMPLETION & SNAGGING

Once the project is complete we ensure a robust inspection and handover takes place with you. All snagging is agreed and completed in a timely manner. Complete customer satisfaction is our goal every time!

Design Process

Our Retail design package means complete peace of mind from start to finish.

- Visit your proposed store location anywhere within the United Kingdom and carry out a site survey.
- Fully design and produce 3D / 2D layouts of the existing store front and back-of-house areas.
- Two layout alterations can be made within the price of the design package.

Any further changes are charged at £250 + VAT per alteration.

- Provide 2D and 3D visuals and drawings to meet commercial lease/landlord's pack requirements.
- Architectural supervision at drawings stage is included in the package. This is by qualified MRICS (Member of Royal Institute of Chartered Surveyors) and MCIAT (Member of the Chartered Institute of Architectural Technologists) professionals in partnership with ASK Shopfitting.
- If building regulation is required, the use of ASK Shopfitting's Local Authority Building Control Partnership Agreement will be made available to you.
- Advice only will be provided for utilities requirements and a referral to an experienced energy consultancy company can be made if required.
- Design stage Construction Design and Managements Regulations (CDM) advice will be provided. For the majority of sites a notifiable project F10 is not required but this will be the responsibility of the main contractor once the main contractor is appointed.
- Phone support and back-up advice on the project by ASK Shopfitting.

RETAIL SHOP FITTING

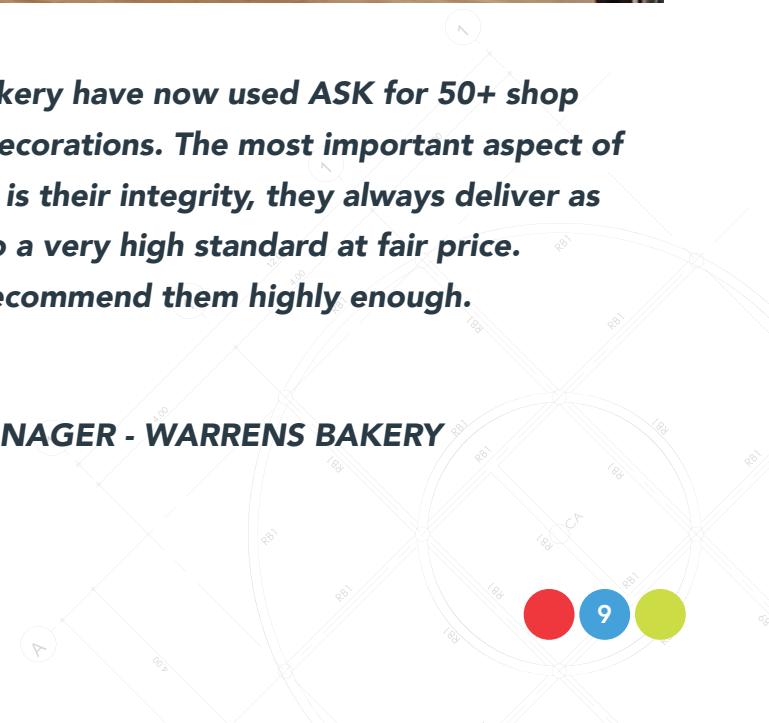

Our state of the art factory with full CNC equipment, plus our workshops ensure that our service is not only professional, but superb quality; delivered efficiently, on time and on budget.

Warrens Bakery have now used ASK for 50+ shop fits and redecorations. The most important aspect of ASK's work is their integrity, they always deliver as promised to a very high standard at fair price. I couldn't recommend them highly enough.

Manage & Consult

Our Dedicated Team...

Andy Kitching
MANAGING DIRECTOR

Andy draws on over 30 years experience in the construction industry. His organisations have completed a vast range of projects from new builds, factory and warehouse remodelling, hospital extensions, timber frame constructions to household

names you would recognise on the high street. Andy has built a business and team around him that is renowned for service, quality and value. He takes a personal interest in all projects, to ensure they are being delivered to time, cost and quality.

Andy Hulbert

HEAD OF
SALES

A seasoned Franchisor with 25 years Retail Operations. Most recently, Andy has successfully launched Warrens Bakery into the Franchise Market. He established Warrens Bakery as the 61st and 9th (in the food category) brand

in the U.K. top 100 Franchise List as one of the fastest growing Food to Go brands in the U.K. Warrens Bakery now has 500 potential stores opening in the next five years, both in the U.K. and Internationally.

Caroline Kitching

COMMERCIAL
DIRECTOR

Caroline has been an ever-present in the business, working alongside the director supporting the commercial strategy as well as the administration

of the business. A key partner in ASK and someone who also shares a passion for delivering high quality service and products for clients.

Steve Payne

FACTORY
OWNER

Steve offers over 30 years of experience in the design and production Industry. Using the latest in machine and production technology to produce the products of the highest quality at competitive prices.

His attention to detail is second to none and you can expect professional quality and service on every project. Steve takes personal pride in delivering quality products that will stand the test of time.

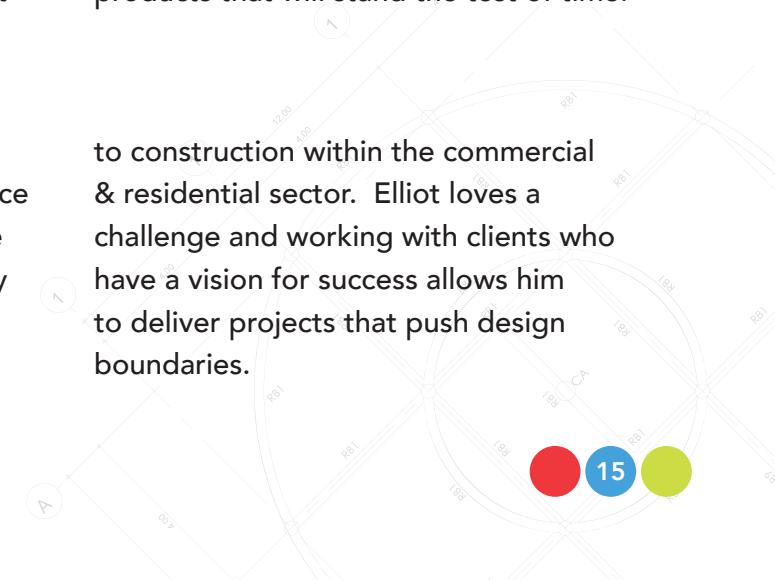

Elliot Billington

LEAD
DESIGNER

Fully Qualified Spatial & Interior designer with several years experience and an M.A. & B.A. in the field. Since Graduating from Plymouth University he has overseen a large range of projects from initial concept through

to construction within the commercial & residential sector. Elliot loves a challenge and working with clients who have a vision for success allows him to deliver projects that push design boundaries.
